B.Tech in Electronics and Communication Engineering | National Institute of Technology, Kurukshetra

EDUCATION

- National Institute Of Technology, Kurukshetra** 2022 – Present
B.Tech in Electronics and Communication Engineering CGPA: **8.2/10**
- VidyaSagar School, Indore** 2019 – 2021
Senior Secondary Education Percentage: **92.6%**
- Pioneer Montessori School, Barabanki** 2017 – 2019
Secondary Education Percentage: **90.3%**

PERSONAL PROJECTS

- Real-Time Chat Application** Aug 2025
Node.js, Express, Socket.IO, JWT
 - Designed and developed a service-oriented backend for real-time messaging using Node.js and Express.
 - Built secure RESTful APIs with JWT-based authentication and authorization.
 - Handled concurrency and event-driven communication to ensure message ordering and delivery guarantees.
 - Wrote modular, maintainable code and performed peer-review-style self evaluations to improve code quality.
- AI Finance Manager** June 2025
Next.js (TypeScript), Prisma, PostgreSQL, Gemini AI
 - Built full-stack features for an AI-driven finance platform handling **1K+ structured records**.
 - Designed and maintained structured data models and APIs using schema-based validation.
 - Integrated generative AI to provide contextual and personalized insights to users.
 - Focused on testability, performance optimization, and production-ready code practices.
- AI Recipe Generator** May 2025
React, Node.js, REST APIs
 - Developed full-stack web features using React and Node.js following REST-based design principles.
 - Collaborated on rapid prototyping and iteration based on user requirements and feedback.
 - Improved user experience through efficient state management and responsive UI updates.

POSITION OF RESPONSIBILITY

- National Service Scheme (NSS) | NIT Kurukshetra** Aug 2023 – Present
Volunteer
 - Collaborated in cross-functional teams, demonstrating ownership and teamwork.

TECHNICAL SKILLS

- Programming Languages:** C++, JavaScript, TypeScript
- Frontend:** React, HTML, CSS
- Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT, Socket.IO
- Databases:** PostgreSQL, MySQL, MongoDB(Basic)
- Data Modeling:** API design, schema-based data validation
- Tools & Practices:** Git, GitHub, Agile/SCRUM, Docker, clean code fundamentals
- Core CS:** Data Structures, OOPS, Operating Systems, Computer Networks

CERTIFICATIONS & ACHIEVEMENTS

- Solved **300+ algorithmic problems** on LeetCode and GeeksforGeeks.
- Secured **98.54 percentile** in JEE Mains 2022 (Top **1.3%**).
